

Build Your Robot 2023

We are back with the 6th edition of BUILD YOUR ROBOT.

To offer you an authentic experience, it's going to be a hands-on and in person paid summer internship as always.

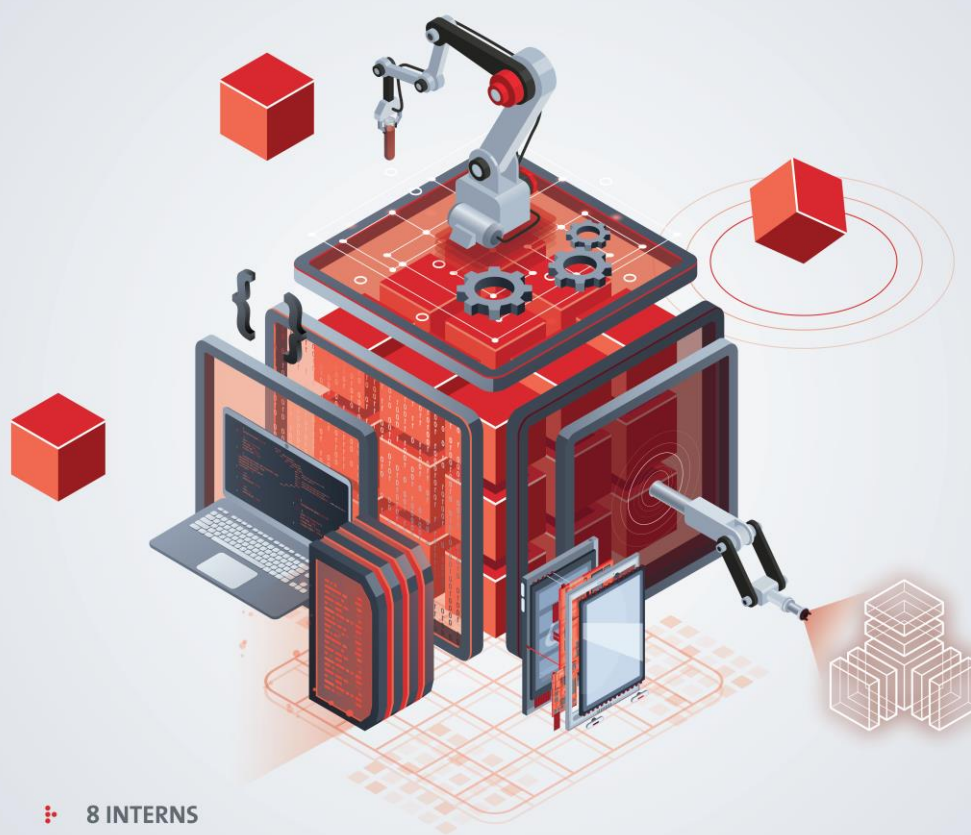

Reasons for you to join:

- We have great mentors
- You will work with a cross-functional team of 8 students
- You can develop your skills or new ones over 10 weeks of intense learning
- We also included a paid summer leave so that your summer plans will not be affected
- You might have an employment opportunity at the end of the program

Interested? Solve the challenge on <https://internship.stratec.ro/> and win a fast pass for the interview.
