

***Project Co4AIR - Computers, Cognition and Communication in Control:  
A strategic paRtnership***

---

The Technical University of Cluj-Napoca is a partner in a newly funded Erasmus+ project within the Call for Strategic Partnerships in Higher Education. The project is entitled **Co4AIR - Computers, Cognition and Communication in Control: A strategic paRtnership**, and comprises seven universities from France, Germany, Spain, Portugal, Romania and Slovenia, as well as the European University Foundation from Luxembourg.

The Co4AIR objectives are to investigate the theory-practice gaps in the teaching of Computers, Cognition, and Communication in Control; to develop and test new course content integrating multi-sectorial material; and to design and develop a pedagogical multimedia product and a student contest, both of these to be validated during two summer schools organized by the consortium. The project kicked off with a meeting at the University of Maribor, Slovenia, on September 27th 2018.

It will be running from September 1st 2018 to August 31st 2021, and its budget from the EU is 340540EUR.

More information about the project can be found at <https://ec.europa.eu/programmes/erasmus-plus/projects/eplu-project-details/#project/2018-1-FR01-KA203-048175>.
