

Job Description

WalletHub.com – one of the leading personal finance destinations in the US – is rapidly growing and is seeking motivated, hardworking, and competitive java developers for full-time (45-50 hours/week), long term collaborations.

As the first ever social network built from the ground up around personal finance, WalletHub is disrupting the notion that money is a taboo subject, and we're connecting consumers with each other and subject matter experts. WalletHub enables consumers to compare financial products, read and write reviews about financial companies and professionals, ask and answer questions, group around shared interests, customize their financial news, and much more. Our goal is to ultimately change the way people think about money.

Regardless of whether the next step in your career is starting your own business or working for a Fortune 500 company, the type of intensive hands-on experience that you will gain while at WalletHub will leave you in a better position to succeed.

Responsibilities:

- Designs and develops web applications using Java, PHP, Spring Framework, MySQL
- Designs and develops unit test cases to make the code more robust
- Participates in pairing and code reviews.
- Support and troubleshoot problems with existing applications
- Participates in the areas of architecture, design, implementation, and testing

Requirements:

- 2-4 years experience in Java, Spring and MySQL (or any relation database)
- Experience developing web and stand-alone applications in Spring technologies such as: Spring MVC, Spring Security, Spring Batch
- Excellent communication and analytical skills

Nice to have but not required:

- Experience in PHP
- Familiarity with front-end technologies – Object-Oriented Javascript, AJAX, XHTML, HTML, XML/DOM
- Experience with unit testing framework, test driven development

Wallet HubTM

Our offer:

- Competitive salary
- Possibility of stock options after the 1st year based on performance
- US Visa sponsorship after 12-18 months with the company, based on performance (this is a remote position)

How to Apply

To get our attention, all you need to do is send us a resume and an email telling what makes you a good fit for this job (i.e. we do not want a generic cover letter) at jobs@wallethub.com
