## LET'S SEE IF WE'RE VIBING!

- **human beings**
- **can-do attitude individuals**
- **diversity and inclusion advocates**
- **fun and open-minded tech professionals**
- **avid information seekers**

Computacenter is a leading independent technology partner that operates in over 70 countries. Our ambition in Romania is to gather a team of 500 professionals in the next 5 years.

We are headquartered in Cluj-Napoca and we offer national remote-working opportunities.

Computacenter Romania is probably the best combination between working for a large, stable company and a young, ambitious one.
